In the past some farms were approved to apply manure to fields over 200 ppm P. I have rarely done this because most farms have failed to demonstrate that the soil test P level was still being drawn down historically. I can explain in further detail on our call this morning.

Hi Joe:

Were they in the past approved to apply when the soil test was over 200 ppm?

Cheryl,

I am not sure if they are currently approved to apply to fields over 200 ppm P. I did not review there last NMP for permit reissuance but I am evaluating this with their current permit reissuance.

Thanks,
Joe

Yes, if that works for you, I would call 920-662-5191.

Quick question does CSD NMP or Permit give them permission to apply to fields over 200? Would you prefer to talk about this tomorrow.

Cheryl

Hi Cheryl:

Tomorrow, Thursday the 29th works best for me. I have a meeting from 9-10 am and 1:30-2 pm other than that I'm open. Pick a time that works best for you let me know.

Thanks
Joe

Subject: CSD Call

Hi Joe:

Would you have time this week to discuss CSD file review and production area inspection? Please let me know a day and time that works best for you. I have a meeting tomorrow at 2:30, but other than that I am pretty much free.

Sincerely,

Cheryl Burdett
